

BSDU-2X4A

Wideband 2-Section 4-Way Signal Conditioning Splitter/Combiner 500...9000 MHz

Features

- extremely wideband
- lossless signal distribution
- health monitoring with SNMP function
- slot-in module for SR6-11C system platform

Applications

- Air interface emulation
- R&D (Research & Development)
- Product validation

Scope

BSDU-2X4A is a wideband bi-directional splitter/combiner slot-in module, that distributes and combines signals from one common port to 4 equivalent ports in two separate sections. Each channel is equipped with a signal conditioning unit to individually adjust the signal level.

The frequency range extends a frequency range from 500 MHz to more than 9 GHz and is therefore suitable for the latest Wi-Fi and cellular communication channels such as 802.11ax, and 5G NR mmWave.

The module is suitable for use in air interface emulation applications and can be used in a flexible manner due to its excellent characteristics.

Module Monitoring

In combination with the SR6-CU controller module, the BSDU-2X4A offers module monitoring function. The health status can be read out via LAN and USB remote interface of the SR6-CU controller module. The health status gives information about operating points of the internal wideband amplifier stages and the temperature of the RF module. Also, identification can be queried in form of ASCII strings.

The LAN remote interface offers SNMPv2 (simple network management protocol) trap function for an operation in complex environments.

In combination with the SR6-11C controller unit the BSDU-2X4A is able to identify failures and to inform the supervising system automatically.

SR6-11C System Platform

The BSDU-2X4A module is foreseen for the integration into the SR6-11C system platform. 11 slots in the SR6-11C can be used for modules like RF switches, matrices, multicouplers, attenuators,

BIAS-Ts, level detectors, bi-directional splitters/combiners for signal conditioning and a controller unit. For the module health monitoring the SR6-CU controller unit is required.
